

Exhibition Coexistence Slated to Come to Central Florida  
"Celebrating our differences & rejoicing over  
our similarities"

Imagine a giant outdoor exhibit created by artists from war torn countries around the world. Imagine this exhibit bringing together blacks, whites, Asians, Jews, Arabs, Christians, Moslems, Hindus, Hispanics, rich, poor, conservatives, liberals, heterosexuals, homosexuals, young and old to dialog about their differences and similarities. Imagine the par between them getting smaller and smaller as they learn more about each other and come to respect each other as individuals. Imagine them celebrating their differences and rejoicing over their similarities.

This will be happening in Central Florida and you can be a part of making it a reality.

Coexistence is a giant outdoor art exhibition that has visited cities all over the world such as Jerusalem, Belfast, Sarajevo, Berlin, Washington D.C., Miami and more. The images are accompanied by panels in four languages with quotes from leading thinkers, philosophers, writers and artists.

Collaborations between Universities, Holocaust Education Centers, Islamic Centers, Hindu organizations, Churches, corporate entities and others have brought this exhibit to other communities. Imagine doing the same in Central Florida. The epitome of melting pots. Imagine educational forums and public discussions on Coexistence. Imagine a "Coexistence Challenge" presented to organizations and individuals. People being asked to commit to building a bridge during this "Month of Coexistence". Identifying a counterpart that they had severed ties with and committing to initiate a project together or simply agreeing to meet together to overcome their differences.

You can be a part of making this dream a reality. We are competing against two other major cities so please contact us as soon as possible.
